LE202400427/10 | MALE TREND SETTER

Anyone seen my friend? She's a trend setter like me !

What is Art?

Art means lots of things to different people.

For me, art is a medium for expressing my thoughts, feelings, beliefs and values. It is also a means of relaxing, reflection, meditation and enjoyment.

I've always had a passion for the creative arts. Painting on my iPad has enabled me to capture 'moments in time' and then to share them with anyone wishing to engage with my work.

When I say engage, I am keen for my audience to go beyond the horizon of the art they are looking at, vidi-poem they are viewing, book they are reading, or music they are listening too. I challenge them to see beyond the veneer of the impression, puzzle of the poetry, shades of the cryptic satire or sound of the quaver.

If you'd like to look beyond the front cover of 'indie's moments in time', please visit my online gallery for | Digital Abstract Art | Vidi Poems | Music | Books | and much more.

In answer to the question 'What is Art' please consider the following when you are engaged with visual art, literary art, performing art or any other art form.

- •As I look, what do I see, what have I missed?
- •As I read, what does the wordsmith wish to leave with me?
- •As I watch, what emotions do the performers wish to share with me?
- •As I listen, what do I hear?
